X	KV, CBSE Board	10	2016

TECHNICAL SKILLS

Languages: C, **Javascript**, Golang

Web Technologies: **NodeJS**, **ReactJS**, HTML, CSS

ACADEMIC PROJECTS

REST Countries

Made a frontend website which uses REST Countries API to collect data about different countries and gives option to sort countries by continent. Also contains a display page for more details about each country and has a beautiful color theme switcher
View project at : https://github.com/HARSH-SHETH/REST_Countries_API

URL Shortener

Built a URL Shortener site which takes a url and gives back a shortened url to the user.
